Dear Bob,

Thanks for the disgusting, revolting pages. I've read them and decided to buy the book but there is none in town.

Other than for my need, wonderful!

You did not include the notes. Will you please send his sources, few as he gives?

The pages are xv, xxii-xxiv, xxxii, 374-9 and 553.

The man's ignorance is staggering. One of the evils he attributes to me is spending a lot of time with Charles Story, "identified as an SMN law professor and former Nuremburg prosecutor. I spent part of a morning and a short while of any afternoon with Robert G. Story<sup>6</sup>, dean emeritis of the law school, <sup>put up</sup> returned and working on his papers. He had been a member of the Texas Court of Inquiry into the JFK assassination.

There is a provision of the Maryland code like the one I cite in the enclosed letter to an assistant states attorney here. They have a fat file of Harry's letters so they can take such a case, if they will. For the amount of space he devoted to you, you should check the code. One of the felonies is alleging an indictable offense. ~~Is~~ not being able to read X-rays that for a doctor?

It is simply amazing how free he was in making things up. I ~~am~~ be annotating all of it in time but I was ~~never~~ in political warfare in the OSS. I was an analyst who did occasional investigating but only as a trouble-shooter, when others had failed. Well, you'll see some of that in the enclosed letter. I used that page only because he does attribute an indictable offense to me, helping a JFK assassinator.

Many thanks,

*David*
